

Registry Offices and Wedding Halls of Budapest

When applying for a marriage license in Hungary, You always must visit the registry office of the district, in which You wish to have the official civil ceremony. In some Districts official outdoor civil ceremonies are also allowed. In the Districts, where they are not allowed, but You wish to have a site civil ceremony, we propose You the symbolic (legally not binding) civil ceremony, which can be ordered at our company.

For more information about the marriage ceremonies and needed documents also refer the first pages of our online brochure ([download from here](#)) and our website at www.hungarianweddings.com.
